SERVICES

What we do on your behalf

01
Vendor inspection
Pre-inspection meetings, ITP review, hold and witness points, visual and dimensional checks.

02
FAT / SAT witnessing
Performance and mechanical run tests, hydrostatic and pneumatic tests, functional tests.

03
Manufacturing surveillance
Welding, NDT, material traceability, coating and final documentation review.

04
Expediting & release
Progress follow-up, packing and marking checks, Inspection Release Notes (IRN).

HOW A MISSION RUNS

1 · Scope
PO, ITP and location received; reply within 24 h.

2 · Prepare
Specs, codes and previous reports reviewed before the visit.

3 · Witness
On site, every check tied to a criterion and a reading.

4 · Report
Flash the same day, full report in your template.

EXPERTISE

Disciplines and codes

Rotating equipment

Pumps, compressors, mechanical seals.

`API 676 · API 682`

Pressure equipment

Vessels, heat exchangers, piping.

`ASME VIII · CODAP`

Electrical & ATEX

Hazardous-area equipment, panels, motors.

`ATEX · INERIS-qualified`

NDT & materials

Review and witnessing of NDT, PMI, material certificates.

`RT · UT · MT · PT · EN 10204`

Lifeboats & davits

Life-saving appliances: lifeboats, rescue boats, davits and winches.

`SOLAS · LSA Code`

REFERENCES

Hail & Ghasha ADNOC · UAE	**FPSO Kaminho** Offshore · Angola	**FPSO P-78** Petrobras · Brazil
Dalma Gas ADNOC · UAE	**West-to-East Pipeline** Pipeline	**BP GH Lingen** BP · Germany

Manufacturers inspected include **ACEBI** (lifeboats & davits, France). Missions performed on behalf of DNV, Intertek, Fulkrum and Intersica.

ABOUT

An engineer's rigour, a pilot's discipline

Founded in 2019 by Mohamed El Harati, mechatronics design engineer (ENS Cachan, Energy) and airline pilot on Boeing 737. Both careers share one culture: procedures, anticipation and accountability.

Based near Angers, France · worldwide

Reports in client or AVIAMEI format
